“ We met Bart many years ago when he used to come into our store, which was near his home He was kind, funny, and just one of those "good guys" you come across once in a while. He will be missed.

“ We spent many days walking the Circle with our friend Bart. We learned some history of our area and became good friends. Our dog loved him and would always look for Bart as they loved to exchange greetings. He leaves us with many memories. He was a wonderful, kind person and always had a smile for you. Can't say enough about what a great human being has was.
