“ *I haven't had contact with the Schultz family for many years, but wanted to express my deepest sympathy for your loss. We all knew each other growing up as our parents were part of a close-knit group that got together for various functions in Milwaukee. I look back with fond memories of those times and hope your memories of Carol will help sustain you during this very difficult time.*

Again I offer my sympathy to all of you, along with condolences from my brothers, Glenn and Jeff.

“ My deepest sympathy to Ron. I know you and Carol were finally able to get out of the city and to your home up north. I hope Carol had some good times there before her death. We at Elmbrook respiratory think of her often. I will miss the time we had together and remember last Xmas she was in and I had a glittery Xmas hat on and came in singing to cheer her. We both had to be there so we made the best of it laughing and hugging and telling stories.. Then there were times not so happy. Then I was there just to hold her hand and comfort her, as she took her breathing treatments. Then Ron retired and all fell into place for them to move up north. My husband's cousins have lupus and that disease ia relentless. It hits so many vital organs, lots of pain. Carol tried to make the best of it. I am glad she has found peace and is now pain free.. As she always told me she didn't want to be a bother to anybody and Ron was her life. To me she was not just a "patient". We became friends and shared a part of our lives during her frequent hospitalizations. I'm saddened she is gone and wished her last days would of been by our hospital. She was one special lady I'll miss her smile and I'm glad she was part of my life.
