“ I met Cora in the early 1980 period and grew to respect her deeply. I am saddened to see that she has passed. Cora learned that I was taking a much needed vacation, for a month, to the north shore of Lake Superior. She said to me that she would provide for a beautiful vacation, with no rain. When I returned to work she approached me and asked if I had enjoyed all the beautiful weather. I said that I had, and I thanked her, then chuckled with her about the rain beginning to fall as I was on the highway driving home. May the great spirit and God keep Cora. I send my condolences to her family.
