“ I met Jan in 3rd grade at Atwater School in Milwaukee. I loved her sense of humor & playfulness. We’ve remained good friends since then.

We shared a love of animals & were fortunate to have ponies boarded at Joy Farm. One of our favorite activities was to swim in chilly Lake Michigan after a hot day horseback riding, & then run up the 7 switchbacks to our house & jump into a hot shower. We had many slumber parties with girlfriends at each other’s houses.

We met John at Shorewood High School (he was a basketball star). He became good friends with one of my early boyfriends, so the 4 of us spent time together—especially at the Humboldt House off Brady Street, & camping trips to Terry Andre State Park.

We kept in touch when I moved to Idaho, Nevada & Oregon, visiting each other through the years. It’s been so good to reconnect with Jan & John when I moved back to Milwaukee in 2010 to help my now 95 year old mother.

I’m so glad I had a chance to visit with Jan this past summer at Ottawa Lake where she was camping with her dogs before she got sick, & I was able to speak to her numerous times over the past couple months.

I have always admired Jan’s compassion, interest in others, ability to connect with anyone, & her commitment to nursing & to her husband, John. I’m sure she brought love & light into each of her patients’ lives.

Jane, Kim & Jeff—we’re so sorry you’ve lost such a special daughter & sister.

John—we’re sad that you’ve lost your life partner & best friend.

“ *I worked with Jan some 40 years ago at Lutheran Hospital in Milwaukee. Jan was my role model as a nurse. Her mentorship directed the path my life would take professionally. In later years, John and Jan visited the family vacation house on Lake Tomahawk. Together we were able to share fun times with my family.*

Jan's gifts to the world were her intelligence, compassion and beauty. I am forever grateful for this light in my life.

Our thoughts are with John and the Knight family at this most difficult time.

“ I am so sad to read of Jan's passing. I worked with Jan for five years in the OR at Howard Young. Jan held herself to an exceptionally high standard as a nurse. She was an inspiration and you could always learn something from her about how to be a really good nurse. Not only was she an amazing nurse she never said an unkind or negative word about others. She truly was someone we could all look up to. I knew Jan a little bit as a fellow Saint Germain resident too and smile at the thought of her buying chicken gizzards at the grocery store for her beloved, lucky, puppy dogs. I am so sorry for her husband and all the folks at Howard Young who are undoubtedly heartbroken at Jan's passing.

“ I have so many good memories of Jan. I spent many hours in long surgical cases with Jan. She was one of the most graceful and kind people I have met. When I was pregnant with my children, Jan would feed me oyster crackers and oj in the OR to keep me going for those marathon cases.

One especially good memory was when we played a prank on one of our surgeons. I was 8 months pregnant at the time and was training someone to cover my assistant duties for a technically challenging surgical case. Jan and I had planned the perfect prank. While working on a less challenging part of the case, Jan stood behind me and popped a water balloon. The surgeon quickly asked “what was that!”. I just looked at him and told him he better work fast. His eyes grew wide and he said “oh, my god are you serious”. We instantly started cracking up and he roused us for the prank. Everyone in the room was laughing, including the surgeon. It was one of my best memories of Jan.

I just wanted to share one of my funny lighthearted memories of Jan because she really was a fun loving kind person. She is truly missed. If I gain half the compassion and grace in my life that Jan held, I will be a very lucky woman.

“ Sending my sincere condolences. I met Jan in the late 1980s when I started to work in ICU at the hospital. Jan was the best mentor, teaching me well. She truly helped me grow in my own nursing career. Such a beautiful soul that always put her patients and others first. You will be deeply missed.
