CJ

“ I remember Ken as a young child in Stevens Point golfing at the Stevens Point Golf Course and was very good for his age. Later he was (most of the time as the dads were Tinkering and thinking up projects) drove the boat for three girls water skiing over Memorial Day weekend. I also have to thank Ken for teaching me how to snow ski. This was a man who really enjoyed and appreciated the outdoors. Ken will be sourly miss but truly remembered by many people who's lives were touched by you.

“ I have many memories of Ken from our college days at Cornell, but especially of his family who took a friend and I into their home on Fence Lake , Waverly Woods , while we found jobs and a rental way back in 1973 ! What a summer ! Without Ken , Chirpie and Big Vic my parents would not have bought our home on Lake Tomahawk , it started with the kindness and hospitality of all the Vickerstaffs . I will miss him as will many ! My love and prayers to the entire family.
