“ I am saddened and stunned to discover, nearly 2 years later, of Marita's passing. I looked her up to contact her after many years of being out of touch. We worked together for years in Seattle, and several of us were involved with human rights issues at the time. She was a gift to all the patients and families who had her as their nurse. Her joy and laughter were infectious. She was much loved. My deep condolences to the family, these years later.

“ I lost touch with Marita many years ago and was shocked to learn of her death. She was such a great person, and I was really in awe of her, and especially her courage to go to Lebanon during the war there to help out. I was always intending to look her up and write or call, to catch up, and hear that great laugh of hers. My condolences to her family on this great loss.

My goodness - my mother truly loved you and even until the end she remembered you from your exuberant charisma and your waves of realness, something so incredibly raw and very human. That time in her life she held incredibly close to her, I know that more than most other things right now, I myself am at a complete loss without her but she's not in pain any longer so I can accept that with open arms.

If possible please email me at jordanxmutha@gmail.com, even if just to share some of the memories of my mom and her fabulousness; Both then, and up until recent times.

We're still planning a remembrance here in California in addition to the burial we had in Manitowish Waters, we welcome ALL individuals hoping to share the love in our lives we've received from Marita herself.
