“ *When we first met Michelle she was 7 years old, her mom was married to my brother. She would come to our house and play games and visit grandpa and Grandma and her aunts and uncle to be. The first time she was with us we went to the fair, we where asking a question and she said we can't talk to you mom said don't talk to strangers. We also had cats so she would pet them most of the time she would come after church. We will miss you. love from the mcvicker family*
