Final Flight

With inch worm speed

And stubborn will,

I'm moving up

Life's rocky hill.

Yet deep within

My heart and soul,

I know that God

Is in control.

Forming wings

For future flight,

From earth's domain

To Heaven's height.

So patiently

I'll pray and wait,
For God has planned
This time and date.
Until I fly
With wings of gold,
Into my Shepard's
Heavenly fold.

“ I want to send the family thoughts and prayers. Genie loved her family and often talked with me about them. She loved you all very much.

I was one of Genies caregivers through Loving Touch. She was a pleasure to be around. When I was with her she would often read me her poems that she had written and talk about when she was younger her mother would sit and read poetry to her while she sat and combed her mother's hair. She often said to me when I combed her hair that it felt so good to have someone comb hers. We also had days where we would love seeing the birds come to the feeders on the porch and see the deer that came around the building. Genie opened her heart to me and would say that I was part of her family I new then that I made a difference in her life but I would like her to know that she made a big difference in my life as well and I will never forget her as she will hold a piece of my heart forever! Rest in peace Genie McKenzie you are now with the love of your life and combing mom's hair while reading poetry.

“ Miss Genie, she will be missed dearly by her family and friends here at Milestone. Her personality, is what made her such a joy, always making jokes and getting people to feel wanted and full of joy. I hope now that miss genie and Mr dick are and will always be watching over everyone with their love for their family, an friends. As well as for the friends and family here. I will always remember both of you, may your forever continue.
