“ Sue was such a fun person. She taught me lots about how to provide quality care to persons in nursing homes. When she was working at the hospital and I would bring student nurses there, she always gave us a warm welcome-even after she had a busy night. She will be missed.

SK

“ Sue was one of the first nurses that made me feel welcomed at Howard Young when I started working there. She was an excellent nurse and had a great sense of humor. I miss her laugh! Rest in peace.

SM

“ I was so sad to read of Sue's passing. I was fortunate to know Sue when she worked at Howard Young. We worked night shift together for a period of time and of all the memories I have of Sue, two of them stand out the most. The first was that we both disliked being home alone at night. She told me that when Jim was gone at night, she would stack cans in front of the door, it was her homemade security system :) The second one was when it would be a very busy night and I was getting overwhelmed, she would remind me that we had 12 hours to get our work done and that if there was anything she could help with she would lend a helping hand. As a younger nurse her calming nature, years of experience and more laid back approach was greatly appreciated. I will always remember those nights working with Sue. She may be gone, but she is not forgotten.

“ I had the honor of working with Sue for many years at Howard Young. She was a beautiful soul...a cherished friend..a person who could turn a bad day into a great day. She gave love and comfort to her patients..making sure they received the same quality care she would want for herself. To her family? My heart is filled with sadness for you all.

“ My memories of Sue go back many years. We went to grade school and high school together, and tho we lost track of each other later on, those memories linger. We were girl scouts, and I can still hear the sound of the rain pelting our tent during our camping trip to Indiana. And, photos of our indomitable "drill team" bring smiles to my face. My heart goes out to her family, and I hope that happy memories will continue to warm their hearts.

BL

“ My husband and I were very sorry to hear of Sue's passing and we thank Jennifer for calling us to let us know. Sue and I were friends since 1949 when we moved to Bensenville just 2 houses down from her parents. We did everything together. We shared a baby sitter, her cousin, Nina. We performed together in a talent show dressed as cowgirls singing Detour and we attended the same schools, St. Alexis grade school and Fenton high school. We were in the same Girl Scout Troup and TAGS, a drill team sponsored by the VFW Auxilliary. I was in the wedding party when Sue and Jim got married and I was honored when Sue asked me to be Godmother to John. So I feel like an honorary "Aunt " to Sue and Jim's 3 children. I was happy to see Sue and Jim at the 50th Reunion of our High School class..It was wonderful seeing them .....With sincere sympathy and conndolances to Jim, Jimmie, Jennifer and John and their families. Our thoughts and prayers and love are with you. "Aunt Barbara"

“ When my sister, Barbara Bielak Lazzara, called with the sad news regarding Sue, I had so many memories of living in Bensenville just a few houses away from "Tootie" and "Peter-Boy." You never forget your first friends, first neighbors. My most sincere sympathy to all the family.
